

CURTIS COAST

FENCING

ENVIRONMENTAL SUSTAINABILITY POLICY

Curtis Coast Fencing has the following goals....

- Minimise the impact of our activities on the environment and local communities, through responsible environmental sustainable management.
- Promote a positive culture of shared responsibility towards environmental outcomes.
- Continuously improve our environmental sustainability performance and improve the sustainable use of natural resources where possible.

Curtis Coast Fencing has the following commitments....

- Comply with the relevant environmental legislation, and appropriate industry guidelines, standards and requirements specified by our customers and regulatory agencies.
- Implement responsible work practices that minimise the impact on the environment and local communities.
- Establish, monitor and review environmental sustainability objectives and targets to achieve continual improvement of our environmental sustainability performance.
- Implement effective controls to identify, evaluate and mitigate adverse environmental risk from our work activities.
- Take all practical steps to prevent pollution and protect biodiversity and ecosystems.
- Procure goods and services to minimise environmental risk and maximise environmental sustainable opportunities and benefits.
- Provide ongoing education and training to our workforce to enhance their understanding their responsibilities towards the implementation of environmental sustainability principles and practices.
- Investigate all environmental incidents and use the recorded data to improve our policy.
